

INF1340: Bike Share Toronto Ridership Analysis

This project uses the Bike Share Toronto Ridership Data, available through the City of Toronto's Open Data Portal. The data is organized by year, with each year containing 12 monthly CSV files. Each monthly file typically contains over 100,000 rows, where each row represents a single trip taken using the Tangerine Bike Share system.

Data Source: City of Toronto. Bike Share Toronto Ridership Data.
